Dear Sir,

We wish to confirm that the performance of the Productguard range of Water Based Impregnating Sealer supplied to us by you from Guard Industry of France has been extremely satisfying and has gone a long way in protecting various buildings & structures and improving the aesthetics of our Amusement park.

With this positive experience of the water repellent sealers, we are happy to order similar products for our Water Park also and look forward to our continued association for the ongoing projects. We thank you for your exemplary support in identifying and implementing cost effective solutions to address our concerns.

Warm Regards and Best Wishes,
